

385w monocrystalline photovoltaic panel

World-record breaking efficient mono PERC half-cells deliver high power in a small footprint. Fire Type 1 rated module engineered with a thick frame, 3.2mm front side glass, and thick backsheet for added ...

The 385W SUNERGY SUN 60M-H6 solar panels are high-performance mono-crystalline models built using high-quality solar cells and advanced technologies to maximize the efficiency of converting ...

Introducing the Jinko JKM385M-72HBL-V, a high-performance monocrystalline solar panel designed to provide efficient and reliable solar energy generation. With a power output of 385W, this panel is ...

This panel is a 72 cell solar panel featuring a sleek, all-black design coupled with outstanding power output. Its design makes it ideal for residential and commercial rooftop systems.

The MSE385SX5R PERC 66 mono-crystalline solar panel is a 66 cell solar panel with the highest power output in its class. It's high efficiency and certified reliability make it ideal for utility grid-tied ...

This smaller German solar panel brand produces highly efficient and powerful panels with pricing that falls within the mid-range of the industry, leaning slightly towards the cheaper side of the ...

The JA Solar 385W Solar Panel is a large panel which incorporates the latest tech to achieve high performance and open circuit voltage.

The Trina Vertex S+ 385W typically offers a module efficiency of up to 21.1% (some specific models may vary slightly, for example, 20% or 20.8%). This high efficiency ensures you generate more electricity ...

The Phono TwinPlus 385W Monofacial Solar Panel delivers reliable, high-efficiency power output using advanced PERC monocrystalline cell technology. Its half-cut TwinPlus design improves shade ...

The Mission Solar MSE385SX5R 19 385W Solar Panel is a high-performance, monocrystalline photovoltaic module designed for residential and commercial solar energy systems.

High-Power, American Quality
Her Efficiency of Up to 19.11%
High Efficiency at High Temperatures
Quality and Reliability
Enhanced Frame Design
12 Year Product and 25 Year Performance Warranty
This panel is a 72 cell solar panel featuring a sleek, all-black design coupled with outstanding power output. Its design makes it ideal for residential and commercial rooftop systems. Strong 40mm robust frame increases durability and strength and being able to withhold a heavy snow load up to 5631 Pa and large hail. Added ammonia and salt mist res...
See more on [alsolarstore](#)
Brand: Mission Solar
Rated Power Output: 385 W
Length: 78.7in
Voltage (VOC): 48.53V
Missing: monocrystalline
Must include: monocrystalline
EcoDirect Jinko > 385 Watt 144

385w monocrystalline photovoltaic panel

Mono PERC Half-cell Solar Panel ...World-record breaking efficient mono PERC half-cells deliver high power in a small footprint. Fire Type 1 rated module engineered with a thick frame, 3.2mm front ...
