

Are GCL photovoltaic panels easy to use

GCL branded modules can be used for both off-grid and on-grid applications. With high-yield efficiency and long-term performance they are ideal for utility, commercial or residential roof-top installations.

Despite their international success, GCL solar panels may not be the best option for Australian consumers. Find out why!

GCL has not only ended China's PV industry dilemma of "two ends abroad", but is now playing an important role in promoting the use and the large-scale applications of solar energy in the world.

GCL solar panels have a high module efficiency of 21.3%, one of the best in the market. Therefore, these panels can be classified with big brands like LG, Hanwha, Winaico, and SunPower ...

So, Should I Buy GCL Solar Panels?
Example of A GCL Commercial Solar Project
GCL solar panels show some promise of being good quality (particularly the Saturn and Gemini series) through their ranking as a top performer by PV Evolution Labs independent testing. Unfortunately at this stage their offering in Australia (if it is currently available) lacks good customer support. They do not have any Australian staff, office or a...
