

# Australia solar power avaru

Are energy aware solar systems certified?

All solar systems installed by Energy Aware are certified to Australian Standards and installed by Clean Energy Council accredited electricians. In addition, all our solar systems are approved by the Clean Energy Council and supported by Australian based lifetime warranties.

What is Australian Centre for Advanced photovoltaics (ACAP)?

ACAP - The Australian Centre for Advanced Photovoltaics - is a dynamic, world-leading national centre where solar photovoltaic research institutions across Australia collaborate. ACAP's broad range of research work is driving Australia's international lead in solar technology and development, as global economies transition to renewable energy.

Is Australia a good place for solar PV Manufacturing?

The Silicon to Solar study examined the opportunity for Australia to establish viable, relevant, and timely local solar PV manufacturing. This report showcases a selection of case studies and snapshots revealing the incredible success of the first ten years of the ACAP program.

Who is Energy Solutions Australia?

We were established in 2009. Today our client base is one of the largest in Australia due to our focus on helping clients to identify and understand their energy opportunities and options, and providing turnkey solutions that meet their requirements.

At Energy Aware, our commercial solar projects help you reduce operating expenses while increasing your profitability.
