AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C& I loads.

DC power and battery supplies are dangerous and have extremely high short circuit currents. Severe burns or death can result from a system short. They also can leak potentially explosive gas ...

An Energy Storage System (ESS) is a specific type of power system that integrates a power grid connection with a Victron Inverter/Charger, GX device and battery system.

The battery should avoid impact. When handling the battery, it should be carried in accordance with the direction required by the battery, with no inversion and tilt.

Before installation, be sure to cut off the grid power and make sure the battery is in the turned-off mode. Wiring must be correct, do not mix-connect the positive and negative cables, and ensure no short ...
