From 64 percent in 2008, the share of Belgian households with internet connection grew to 95 percent in 2023, as connectivity became more equally distributed across the federal state's regions...

Belgium possesses the infrastructure for both mobile and land-based telecom, as well as having significant television, radio and internet infrastructure. The country code for Belgium is BE.

Base was founded as Belgium's third major mobile network operator in 1999 under the brand name of KPN Orange. It was a joint venture between the Dutch KPN Mobile and the then British Orange telcos. After the acquisition of Orange by France T&#233;l&#233;com, its shares were sold to KPN Mobile. In 2002, the brand name was changed from Orange to Base. The fixed line and broadband operations were started in 2007 after the acquisition of Tele2 Belgium. I...
