

Central and Eastern European Power Storage Cabinet

The equipment includes dry-type transformer, PCS high and low voltage switch gear and so on. Its voltage level ranges from 6kV to 35kV and the capacity ranges from 0.5MW to 3.75MW.

This all-in-one ESS integrates a high-performance PCS, LFP battery modules, intelligent BMS, and a cloud-based EMS to provide reliable, safe, and efficient energy storage.

This project is located in the Kyiv region of Ukraine and is designed for a local factory. The system consists of 4 units of 50kWh and 2 units of 100kWh energy storage cabinets, primarily to address ...

Save space and provide secure storage with cabinet-type energy storage systems. More pricing options at [cw-enerji](#).

Designed for multiple scenarios, they are ideal for urban buildings, communities, and low-voltage networks, featuring highly integrated liquid-cooled Commercial & Industrial (C& I) energy storage ...

Whether you're looking for a turnkey solution or simply wish to purchase our cabinet-based battery storage system, we offer both options!

HOLDONE Energy Storage Cabinets are purpose-built to facilitate effective energy management and enhance the safety of battery storage systems. With robust construction and high-quality materials, ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

Enclosure solutions for cold climates. Keep your equipment running smoothly even in extremely low temperatures with INTERTEC's insulated and heated enclosures.
