Fogstar Drift Gen2 brings major upgrades to the lithium leisure battery market. Improved monitoring, stronger performance and seamless Victron integration.

In this Fogstar batteries review, we'll explore the specifications, compatibility, warranty offerings, and real-world user experiences of Fogstar batteries in residential solar PV systems.

We're an electric only house, and use a rather staggering amount of energy as we have two EVs. We average 60 - 70 kWh / day. I feel we'd get a lot of mileage out of some large battery storage, and so I ...

The Fogstar Energy 16kWh 48V Solar Battery is built like a tank, superb quality and clearly engineered to last. Pre-sales advice was excellent, delivery was right on...

I was waiting for Fogstar to develop this battery for some time, Ben made a post (over a year ago i think) asking for suggestions and what the end user wanted as opposed to just developing ...

This is our Fogstar Battery Review. We'll give you the full lowdown on this battery - how good are the Lithium cells, how is its power performance over time, how does it compare to other LiFePO4 batteries.

I have a battery box I built which would take a third Renogy 170AH battery. This was the plan, however with the ongoing comedy of my discussions with Renogy customer service following ...
