

Lesotho base station distribution cabinet company

Who is responsible for the operation and maintenance of Lesotho electricity generation company?

The Lesotho Electricity Generation Company, as the operator of the project, will take over the operation and maintenance of the project after the completion of the project. At that time, the contractor plans to train the engineers of LEGCO in operation and maintenance so that they can be competent for the work.

How much electricity does Lesotho generate?

Lesotho currently generates electricity through the Muela Hydro Power Station which only provides 72MW and this is not enough to meet the country's base load estimated at 160MW. The situation is even worse during peak hours, especially in winter.

Will Lesotho be able to participate in SADC energy trade?

The situation is even worse during peak hours, especially in winter. This development will further afford Lesotho an opportunity to participate in the energy trade within the SADC Region through the Southern Africa Power Pool (SAPP).

Background The Government of Lesotho has established a new corporate entity, named the Lesotho Electricity Generation Company (LEGCO) to operate and maintain the Project. The primary objective ...
