

With its ambitious Luxembourg City energy storage regulations, this European gem is turning heads in the renewable energy sector. Whether you're a solar panel enthusiast, a business owner, or just ...

A first distribution network development plan is currently being prepared based on scenarios without any battery energy storage capacity forecast due to limited and uncertain data

Harnessing abundant solar resources, an eco-resort located off the coast of Panama has chosen advanced lead batteries, paired with a battery management system (BMS), to power their island ...

An investment call offering subsidies for the construction and operation of new solar installations is open until October 17, with higher subsidies available for solar tied to battery...

In this guide, Ecoclima explains how to estimate the ideal capacity, with concrete benchmarks, local context, Klimabonus subsidies, VAT, and the impact of network pricing. The aim is ...

The strategy, announced on 9 July, aims to maximise the added value of storage batteries for end consumers and the electricity system as a whole, by enhancing its flexibility, resilience, and ...

Cette strat&#233;gie d&#233;crit le r&#244;le des batteries de stockage dans le syst&#232;me &#233;lectrique national, identifie les d&#233;fis &#224; relever et propose vingt mesures concr&#232;tes pour accompagner le d&#233;ploiement de ...

It is predicted that the penetration rate of gravity energy storage is expected to reach 5.5% in 2025, and the penetration rate of gravity energy storage is expected to reach 15% in 2030, and ...

An investment call offering subsidies for the construction and operation of new solar installations is open until October 17, with higher subsidies available for solar tied to battery storage.

This strategy outlines the role of storage batteries in the national electricity system, identifies the challenges to be addressed and proposes 20 concrete measures to facilitate the deployment of ...
