

Nordic accelerates the construction of new energy storage

Richard Gavel, Portfolio Manager at SEB Nordic Energy, noted that the new battery storage project diversifies the fund's assets and accelerates the transition to sustainable energy, ...

Three months after its first Battery Energy Storage System (BESS) acquisition in Sweden, Monsson has secured a second project--a 20 MWh facility in Härryda, western Sweden.

As the Nordic countries push forward with rapid electrification and record-breaking renewable energy development, a new structural necessity is emerging in the energy system: the ...

As the world races toward decarbonization, Sweden's new energy storage technology is turning heads globally, blending Nordic pragmatism with breakthroughs that even Elon Musk might ...

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics.

With ongoing initiatives in Germany, Finland, Italy, and Croatia, Monsson is targeting more than 1 GWh of energy storage across Europe, over 200 MWh of which is planned for Sweden.

It is an honor to inaugurate the largest energy storage investment in the Nordic region. Thanks to the efforts of Ingrid Capacity and BW ESS, we are reducing grid congestion and enabling ...

SEB Nordic Energy has formed a strategic partnership with energy storage company Ingrid Capacity to address the power deficit in southern Sweden. The fund will provide the financing ...

The Elektra Energy Storage Project, Sweden's largest battery storage project, is now fully operational. Located in Landskrona, southern Sweden, the project will provide ancillary services to help balance ...

From advanced storage solutions to nuclear innovation, learn how technological breakthroughs are paving the way for a more flexible, efficient and sustainable energy future.
