

Paris solar Cell Module

Will HoloSolis build a 5GW solar plant in France?

Under the agreement, the two parties will jointly build HoloSolis's 5GW solar module manufacturing plant in France. According to available information, the plant is designed to achieve an annual production capacity of 5GW of solar cells and modules, equivalent to approximately 10 million photovoltaic modules per year.

Will a 5-gigawatt solar panel factory be built in eastern France?

Elise Bruhat from HoloSolis introduced their ambitious project of establishing a 5-gigawatt solar panel factory in Eastern France. This initiative aims to reduce Europe's heavy reliance on Asian imports, which currently account for over 95% of its solar panels, and retain more value within Europe by creating jobs and investing locally.

Why is Das Solar launching a French factory?

Marking the 60th anniversary of diplomatic relations between China and France, the launch of DAS Solar's French factory is more than just an investment--it is a symbol of global cooperation and a model of synergy between Chinese innovation and European manufacturing.

What will Das Solar do in France?

Looking ahead, DAS Solar plans to establish additional facilities for ingot and wafer production in France. Alongside partner companies, it also aims to localize production of key solar materials and components--including EVA/POE, cables, junction boxes, aluminum frames, and silver paste--forming a comprehensive "Made in France" solar supply chain.

The most job-intensive segments along the PV supply chain are module and cell manufacturing. Over the last decade, however, the use of automation and automated guided vehicles ...
