

Portable static electricity removal power source manufacturer

Shanghai QEEPO Static Co., Ltd. Products: anti static bar, electrostatic eliminator, static generator, ionizer blower, static eliminator

QEEPO offers a wide range of professional ESD electrostatic control and monitoring equipment, from static eliminators and ionizing air blowers to static charging and measurement devices.

Industrial static control solutions including static charging, static neutralizing, & particulate removal components to increase or decrease static charge.

This section provides an overview for static eliminators as well as their applications and principles. Also, please take a look at the list of 20 static eliminator manufacturers and their company rankings.

This resource provides easy access to product brochures, information on static electricity and how it can be measured, removed or generated in specific applications.

QEEPO focuses on electrostatic and corona treatment, providing electrostatic control and surface treatment industrial equipment. See all our products online.

Koganei Asia offers a range of static electricity removal solutions, including fan, blow, bar, and air gun types, designed to efficiently eliminate static charges. Our products, such as the DTY-EPS01 Series ...

The product lineup includes a stick type with a small flow rate and sufficient static elimination performance; a fan type that does not require an air supply; a point type that fully eliminates static ...

The EXHP Power Unit is a high 6kV power unit, which supplies the energy used to run the Fraser ATEX Certified EX1250 Static Eliminator Bars. The EXHP Power Unit offers many advantages for the ...

The product of the company's main research and development is: Electrostatic eliminator bar, corona treater, ion air bar, high voltage generator, ionizing air blower, static field meter, static sensor, ...
