

By utilising existing power distribution networks for data transmission, PLC offers a cost-effective conduit for establishing robust, bidirectional communication frameworks essential for modern...

Send an HTTP request to SharePoint action in Power automate flows works with SharePoint REST APIs. Follow below Microsoft official documentations for SharePoint REST API ...

Power-line communications (PLC) have proven to be susceptible to the next-generation power transmission/distribution systems with end-to-end communication capability, considered as a ...

Discover the vital role of Power Line Communication (PLC) in enhancing smart grid applications. This article explores the evolution of PLC technology, its significance in data transmission, and how it ...

when opening my report user-confusion may arise from the fact that a date slicer is not automatically extended to the current date of data available. My question therefore is: Does anyone ...

Power line communication, that is, using the electricity infrastructure for data transmission, is experiencing a renaissance in the context of Smart Grid.

By using existing power lines, PLC systems can avoid expensive rewiring and allow for quick network expansion. They enable bidirectional data exchange between energy suppliers and ...

I use Power Automate to collect responses from a Form and send emails based on the responses. The main objective is to automate decision-making using Python to approve or reject the ...

I'm working on a Power Automate flow that updates items in a SharePoint Online list. However, I'm facing an issue where certain columns (including Person/Group fields) are not ...

I signed out and in multiple times in "power automate". I also opened the "sharepoint app" in Office365 (whatever you're supposed to do with it) which worked fine. The sharepoint connector in ...

The objective of this paper is to analyze critically the role of sensing, communications, and control in the Smart Grid and, at the same time, clarify what PLCs can offer today and what is unique to PLCs for ...

You are confusing Power Automate with Power Automate Desktop. The link you provide is for Power Automate, so those functions won't work in the PADesktop. There is an action named ...

Power line communication in smart grid

Power Line Communication Systems for Smart Grids presents the fundamentals and principles behind narrowband and broadband PLC technologies, covering the particularities of coupling PLC signals to ...

I am writing a Power automate to copy emails from an Outlook mailbox to SharePoint. I am using Get emails (V3) and want to retrieve emails received on a particular date.

Power Line Communications (PLC) have been an active research area for many years and it is still the case, mainly because they present economic and technical natural advantages for a wide...

Electrical grid system control requirements and communication topologies are described in this article. The potential application of power line communication (PLC) to the smart grid system is investigated. ...

Is this just part of the building process? Or If I have one query A that loads across the network and 5 follow up queries that refer to query A will power query / excel be reading the across ...
