

Quote for solar energy storage cabinet financing options

What solar financing options are available in 2025?

Read more about the different solar financing options available. In 2025, solar.com Energy Advisors typically recommend using a solar loan to finance a solar system -- if the homeowner can efficiently monetize the 30% federal tax credit. If they can't, then a solar lease or PPA is the best option.

Should I pay for my solar investment in cash?

Given the relatively high interest rates, solar.com recommends homeowners pay for their solar investment in cash if they can. This will achieve the lowest value of solar power possible and is a safe place to invest money in an otherwise highly volatile market. But, for homeowners who are looking to finance their solar, what are the best options?

Should you get a solar loan or a PPA in 2025?

In 2025, solar.com Energy Advisors typically recommend using a solar loan to finance a solar system -- if the homeowner can efficiently monetize the 30% federal tax credit. If they can't, then a solar lease or PPA is the best option. Want to see your solar savings potential?

Should you refinance a solar loan?

Although the APR seems significantly higher, the total balance of the loan is lower. These higher interest rate loans provide homeowners the greatest flexibility with their solar investment. They can refinance if rates drop in a few years, or pay off the principal balance at any time without leaving their rate buydown on the table.
