

Smart Solar-Powered Containerized Containers for the Catering Industry

Our solar-powered walk-in cool room is a trusted solution across various industries, including events, hospitality, and off-grid tourism. It has also been deployed by governments and aid organizations to ...

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs.

Cool-Watt™ is a solar power plant designed as a 20 feet maritime container, pre-cabled and pre-tested so that it can be deployed in less than 1 hour without civil engineering or specialists.

At Solar Ice Box, we specialize in cutting-edge, solar-powered refrigerated container solutions designed to revolutionize food preservation and supply chain efficiency.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

At SolaraBox, we design and manufacture advanced solar containers that bring clean, reliable, and mobile energy wherever it's needed. Built for multi-industry use, our systems replace ...

Each unit is 100% solar-powered with battery backup, requiring no fuel, generator, or grid connection--ensuring uninterrupted, dependable operation in any environment.

Equipped with integrated solar panels, LiFePO4 batteries, and a high-efficiency refrigeration system, it provides stable, low-temperature storage for agriculture, food distribution, logistics, and ...

Discover how smart shipping containers use AI, solar power, and 3D printing to create intelligent, sustainable homes and workspaces. The future starts now.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.
