

Solar-powered containerized three-phase equipment for drilling sites

We provide solar-powered and hybrid systems engineered for remote or stand-alone applications. These systems are ideal for areas prone to lengthy weather-related outages or where grid power is ...

Our on-site solar energy kits are capable of providing all necessary power without the need of a grid. Our reliable design means there will be no lapses of power, keeping the pipeline charged and protected.

MEOX hybrid Off Grid Container Power Systems, built on the core framework of hybrid solar container systems for remote areas, combine DC coupling, VSG grid-forming, and intelligent EMS to maximize ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

With high solar yields this robust range of mobile solar power systems delivers alternative power solutions to temporal energy provider companies. The ZSC and ZSP models are ready to use, self ...

The MOBIPOWER-14K containerized off-grid solar generator delivers hybrid solar, BESS and methanol fuel-cell power for mining, camps and industrial sites in Canada & USA.

NEOSUN PowerHub provides plug-and-play containerized solar energy with optional battery and hybrid backup - ideal for remote mining camps and off-grid industrial sites.

Our containerized energy solution offers notable economic and practical advantages: Minimal civil and site work costs, with system setup requiring only open flat ground and no ground penetration

We design and engineer custom Solar Power Systems for Oilfield Services, Gas Pipelines, Off-shore Drilling, Injection Sites, Wellhead Locations and Related Oil and Gas Service Companies.

Explore our range of high-efficiency solar container solutions designed for businesses worldwide. Our containers combine cutting-edge technology with durability and ease of deployment.
