

Slovakia still relies heavily on nuclear power, which provides around 60 percent of its electricity. In contrast, solar accounts for just 2.4 percent. Enery, which operates renewable assets across central and ...

Together with brief qualitative assessments of barriers and policies and measures (PaMs), the document examines the deployment of solar PV, onshore wind, hydropower, bioenergy and geothermal sources in ...

Voltalia, a French renewable energy investor, is set to significantly impact Slovakia's solar energy landscape with a substantial investment. The company plans to develop 50 solar parks with a total ...

The Slovak government is committed to increasing the country's solar capacity. In April 2023, the government announced plans to hold its first-ever PV auction, part of a broader goal to install 500 MW of ...

The Slovak Association of Sustainable Energy (SAPI) says Slovakia's newly installed solar PV capacity in 2024 totaled over 274 MW, representing up to 98% of the total 280.16 MW of new electricity ...

Solar photovoltaic installations hold 100% of the Slovak solar energy market in 2025, leaving no room for concentrated solar power because irradiation conditions favor flat-plate modules.

Enery, a leading independent green power producer in Central and Eastern Europe, is pleased to announce the successful acquisition of Project Lassie, a portfolio of 32 operational photovoltaic (PV) power ...

The company specializes in the design and implementation of photovoltaic power plants and systems, offering a wide range of solar equipment, including panels and smart battery storage solutions.

Slovakia still relies heavily on nuclear power, which provides around 60 percent of its electricity. In contrast, solar accounts for just 2.4 percent. ...

Last year's solar additions, led by installations in the commercial and industrial sector, took Slovakia's cumulative solar capacity to over 1 GW. Slovakia added 274 MW of solar in 2024,...

Listed below are the five largest active solar PV power plants by capacity in Slovakia, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to provide a complete ...
