

Sunamp heat storage batteries

Sunamp's Thermino(TM) range offers cutting-edge thermal batteries that efficiently store energy from various sources--including heat pumps, grid electricity, and boilers--to provide instant, high ...

Sunamp is the only heat battery manufacturer in the world to be awarded A Grade RAL Certification, the independent quality mark and only global standard for Phase Change Material (PCM) and PCM ...

SUNAMP is an innovative thermal domestic hot water battery that allows for low-cost, instant hot water heating. SUNAMP charges its phase material in off-peak electrical hours and discharges heat to the ...

Sunamp has released a thermal battery that leverages sodium acetate trihydrate (SAT), commonly found in hand warmers and salt-and-vinegar potato chips.

Plumbers, installers, stockists and specifiers, visit Sunamp's UK information hub to find installation instructions, technical leaflets and training sessions about our range of thermal batteries.

Sunamp's thermal batteries are energy-saving thermal stores with Plentigrade, our high-performance phase change material, at their core. At Sunamp, we make and sell batteries that store heat and ...

A Sunamp heat battery is a compact, high-density thermal storage solution that provides domestic hot water on demand. Unlike traditional systems that store large volumes of heated water, this ...

Thermino(TM) heat batteries are modern-day, energy-saving thermal stores made with a high performance phase change material to deliver fast-flowing hot water reliably, safely, and efficiently.

Discover how Sunamp's innovative thermal batteries are revolutionizing the storage of solar power. Learn about the technology behind these compact and efficient batteries, their potential ...

Sunamp Ltd, a Scottish company, developed a highly efficient thermal energy storage solution known as the Sunamp Heat Battery. The technology was initially conceived through ...
