

Swedish high temperature solar system

On a recent trip to Sweden, I discovered an epic scale model of the solar system spanning the entire country - the perfect destination for space lovers like myself!

Solar system, assemblage consisting of the Sun and those bodies orbiting it: 8 planets with more than 400 known planetary satellites; many asteroids, some with their own satellites; ...

The Sweden Solar System is the largest scale model of the Solar System in existence, and it spans the entire Swedish territory. It was created by astronomers Nils Brenning and Gösta Gahrn ...

There is a big gap between the small solid planets on the inside of the solar system and the first of the gas giants--both in the heavens and in Sweden.

The Sweden Solar System (SSS) is the world's largest model of our planetary system. The Sun is represented by the Globe in Stockholm, the largest spherical building in the world, and the planets ...

The Sweden Solar System is the world's largest permanent scale model of the Solar System. The Sun is represented by Avicii Arena in Stockholm (still known by most as Globen), the largest hemispherical building in the world. The inner planets can also be found in Stockholm but the outer planets are situated northward in other cities along the Baltic Sea. The system was started by Nils Brenning, professor at the Royal Ins...
